TO THE PEOPLE OF WEBSTER

At the annual town meeting held in March, 1952, the town voted the largest Town and School appropriations in the history of the town, resulting in a very high tax rate. Another factor entering into this rate is the fact that the town inventory of logs on skidways and sawed lumber on April 1, 1952 was \$7,600.00 less than in 1951, and road building machinery was \$10,650.00 less, making a total loss of \$18,250.00 in inventory against which to apply our town maintenance budget.

Town officers were voted sharp increases in salaries, some being justified and some out of proportion to a reasonable increase. We believe the vote should be reviewed and appropriate action taken at the next Town Meeting.

Not all of the money raised for the maintenance of roads and bridges was spent, leaving a small surplus to be returned to the General Fund.

Public Welfare amounts proved to be ample, as were the appropriations for the Town Library, Old Home Day and Memorial Day.

Very few fires occurred during the past year resulting in a saving in the Fire Department's appropriation.

An appropriation to move the building known as the Sweatts Mills schoolhouse now used as the Town Library and Selectmen's Office was not spent due to delays in negotiating the purchase of a suitable location for the permanent site. However, since the close of the fiscal year, a tract of land north of the new schoolhouse has been purchased from Randolph Inman and plans will be made to move the building in the spring of the year. The necessary funds have been set aside for this purpose.

The completion of Snyder's bridge left a substantial balance which should be transferred to help defray the cost of permanent floor construction of Clothespin bridge.

Further, in connection with highway improvements, we are pleased to report that an agreement has been reached between the Selectmen and the State Commissioner of Roads for the repair of a certain piece of State Aid Road at the Northerly end of Lake Winnepocket, to make the existing highway equal to that now maintained by the Town on both ends of this section of State Aid Road. This will be accomplished at no expense to the Town of Webster.

In the past it has been the town's policy to let the State oil our town roads. This work has been done by the State as its work schedule would permit, usually the latter part of the heavy driving season, and using State paid employees for the purpose. The Board felt that much more good could be derived if the road oiling was accomplished in the early summer.

For this reason the job was undertaken entirely with the aid of local owned trucks and town personnel. It is our opinion that some saving in cost was effected. If the town continues to oil its own roads, it is recommended that equipment for properly heating the oil be purchased. This year the town oiled approximately 3.5 miles of hard surfaced roads at a cost of \$2,570.78, or \$734.51 per mile. The sum of \$3,000.00 was appropriated for this purpose, and the unspent balance has been returned to the General Fund.

The town has approximately 6 miles of hard surfaced roads to maintain, which, based on the above experience would cost at least \$4,000.00 to oil the total mileage. Under the assumption that it should not be necessary to oil this type of road more often than once in every two years, it is apparent that the average annual cost is \$400.00 per mile, depending somewhat on the amount of cold patch repairs necessary and the quantity of brush to be cut, and potential increase in the cost of oil.

In 1952 the town spent \$2,741.75 for the upkeep of the gravel surfaced roads, of which the town has approximately twenty-one miles, thus the cost of maintaining a gravel road

is approximately \$130.00 per mile per year compared with \$400.00 per mile per year for the hard surfaced road.

During the month of August, 1952 a petition signed by residents of Little Hill was presented to the Selectmen requesting the improvement and oiling of Little Hill Road. A hearing was called and held with the petitioners and the Board of Selectmen on September 10. Since no town funds were available at that time, an appropriate article has been placed in the 1953 Town Warrant to be acted upon.

The following table has been prepared by general departmental headings for the purpose of showing the distribution of your paid tax dollars on the basis of percentage cost of each department to the total dollars spent for town maintenance. Also, there is shown the per cent increase or decrease of 1952 expenditures over the 1951 costs.

	1952 Payments	Per Cent Of Total		As to 1951	
	1952	1952	1951	Increase	Decrease

Non-recurring and reim- bursable expenditures	7,789.17				
Total Payments, 1952	\$50,632.96				

In making our recommendations of the amounts needed to support the various departments for the coming year, we have tried to be conservative in our estimates.

PERFECT ATTENDANCE

The new school building has been in operation for a year now. It is such a pleasant change from the old buildings. The teachers and pupils are so pleased with the pleasant working conditions and they have shown their appreciation

by the good care they have taken of the building. The work that was done by the children in getting the flag pole ready to be set up was an excellent example of good citizenship and community cooperation. You and they should be proud of this project.

There is some work that should be done on the building this spring. The building should be painted and the lawn seeded in front of the building. It will improve the looks of the grounds a great deal. It would also be helpful to have a cold patch driveway. This would serve a dual purpose of keeping gravel out of the building which is very hard on the asphalt tile floor as well as providing some play area during the muddy spring season.

I sincerely hope that we will have the same teaching staff next year. Mrs. Perreault will have been with us four years this coming June and Mrs. Anderson is quite well acquainted in the community also. The two teachers work very well together and supplement each other nicely. Blanche Bailey does an excellent job with the music program.

It has been a very pleasant year and I have enjoyed working in Webster very much.

WILLIAM C. STERLING,
Superintendent of Schools.

EXPLANATORY NOTE

In cases of Veterans where the total valuation amounts to more than One Thousand Dollars and less than Five Thousand Dollars, the total valuation of property owned appears in the Total Valuation Column.

In order to figure the tax paid by a veteran, One Thousand Dollars should be deducted from the Total Valuation to find the Net Valuation on which the tax is assessed.
